Québec City, Canada

18 September 2008

2008 IEEE Region-2 Student Activities Conference

April 4-6, 2008 at Penn College of Technology, Williamsport, PA

Student leadership workshop

- John Paserba and Jim Watson

Conference

- Brown Bag Hardware Design
- Micromouse Competition
- Paper Competition
- Project Showcase
- Ethics Competition
- Physics Competition
- Job Fair

Banquet keynote speech

Companies Contacted for Fundraising

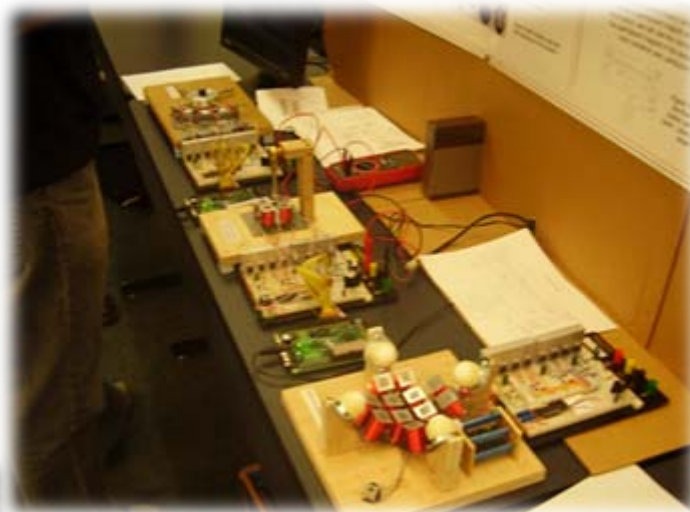

2008 SAC at PCT

GE	Siemens	Lycoming College
National City	Allen Bradley	Newport Business Institute
P&G	PPL	*Pennsylvania College of Technology
Citi	*Tyco	AmerITGrad
Toyota	Comcast	*Apple
Duke Energy	Hewlett – Packard	*Primus
L3 Communication	Toshiba	Videon
Agilent	Samsung	Corning
*National Instruments	Sony	Nestle/Purina
Fairchild	ON Semiconductors	
*Lutron	Tektronics	
Hershey	Williamsport/Lycoming Chamber of Commerce	
Con Agra	City of Williamsport	
Intel	Sun Gazette	
Texas Instruments	Downtown Merchants Association	
Raytheon	Qortek	

SAC 2008 Expenses

Source	Actual	Budgeted
IEEE Region 2	\$22,404	\$28,956
PCT fundraising	\$4,306	\$8,147
Other IEEE (Life Member, EMCC)	\$2,100	\$2,100
TOTAL	\$28,810	\$39,203

IEEE Ethics Contest Gets Second Life

BY JASON LADAY

The IEEE Ethics Competition for student members of Region 2 has come a long way since it was first held in 2005. Back then the region commissioned students in Rowan University's Theater Department in Glassboro, N.J., to act out ethics scenarios, using the rationale that live action would make the competition more interesting than just reading a problem on a page. The IEEE Ethics and Member Conduct Committee holds the competitions to educate student members about the ethical dilemmas they may encounter once they enter the working world.

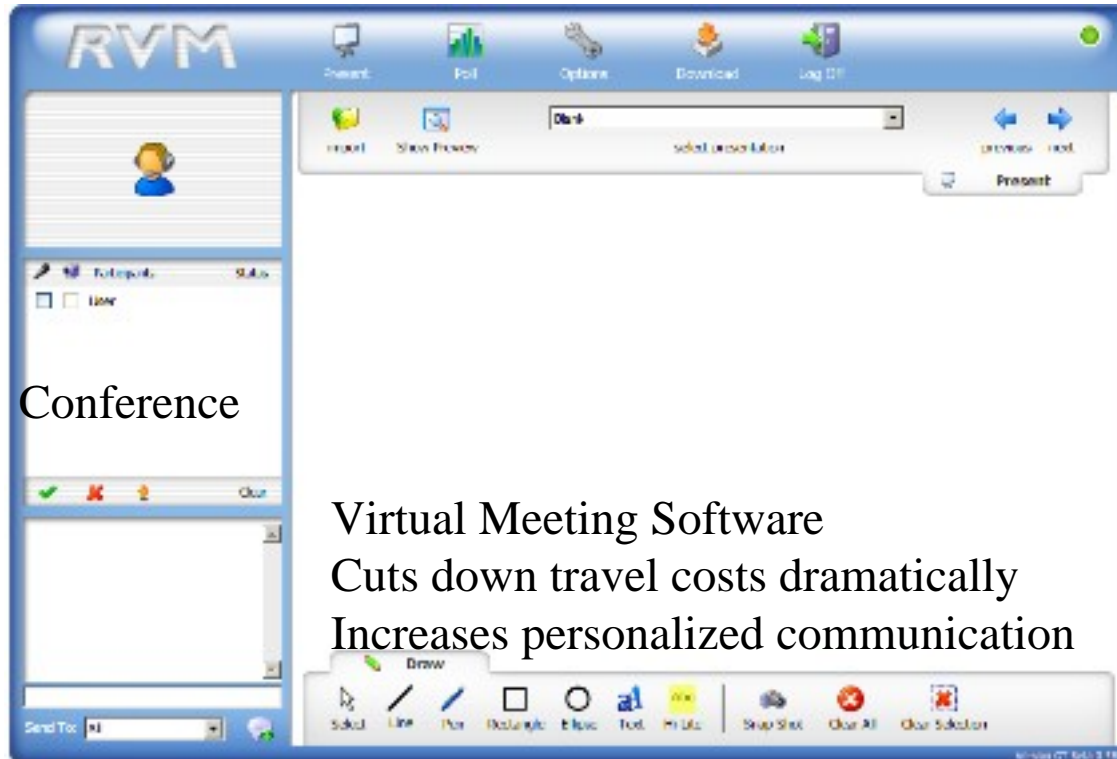

This year the ethics scenarios, programmed in advance, entered the virtual world. They were presented via the popular three-dimensional online world of Second Life, which is part social network service and part interactive world. In general, Second Life allows a "resident"—an individual character created by a Second Life account holder—to explore the virtual world, meet other residents, socialize, create a business and trade with others, and organize group activities. Characters interact on-screen in real time and are for the most part free to do as they like within the computer world the programmers have created—much like a 3-D video game. Second Life boasts nearly 13 million residents around the world.

Outreach Within the Region

Appointed East and West Representatives

West R2 RSR: Eric Statzer

East R2 RSR: Andrew Thompson
